

NIKKOR Z | S-Line
85 mm f/1.8 S

VIBRANT AND TRUE

Intimate settings or big events. Staged shots or candid. This 85 mm full-frame mirrorless lens will portray your subjects with heart-stopping clarity even when you shoot with available light. From classic head-and-shoulder shots to environmental portraits, it opens up new possibilities for detail and nuance.

FEATURES

Fast 85 mm f/1.8 portrait prime lens

Ultra-sharp and brilliant in low light, this lens delivers superb detail throughout the frame. Focusing is fast, and your Nikon Z camera can lock onto your subject's eye whether they're alone or a face in a crowd.

Character driven

You can record video footage with wonderfully shallow depth of field. Whether it's an emotional close-up or a night scene, the 85 mm focal length lets you isolate subjects beautifully.

Real depth

Bokeh is natural-looking and smoothly graded to the edges of the frame. You get stunning results, even if you stop the aperture down a little.

Fine detail

Every component of a scene is perfectly reproduced—even when you shoot wide open. A minimum focus distance of just 0.80 m puts you in control of the frame, from close-up to infinity.

Backlit beauty

Nikon's anti-reflective Nano Crystal Coat combats ghosting and flare for greater image clarity, even in backlit conditions.

Instinctive control

Near-silent AF allows the quietest moment to deliver full impact. The control ring can be used for silent aperture control or exposure compensation, and as a focus ring when shooting in Manual Focus.

Extensive weather sealing

Every movable part of the lens barrel is sealed to protect from dust and water droplets.

INCLUDED ACCESSORIES

LENS CASE CL-C1

LENS HOOD HB-91

LENS CAP LC-67B

REAR CAP LF-N1
